Cognit

One gateway for your AI agents, APIs and MCP servers.

Ahmed Fathy

Why Cognit

Teams run more AI agents, APIs and MCP servers, with no shared way to find each other So we built Cognit!

Discover

Register once, find each other.

Govern

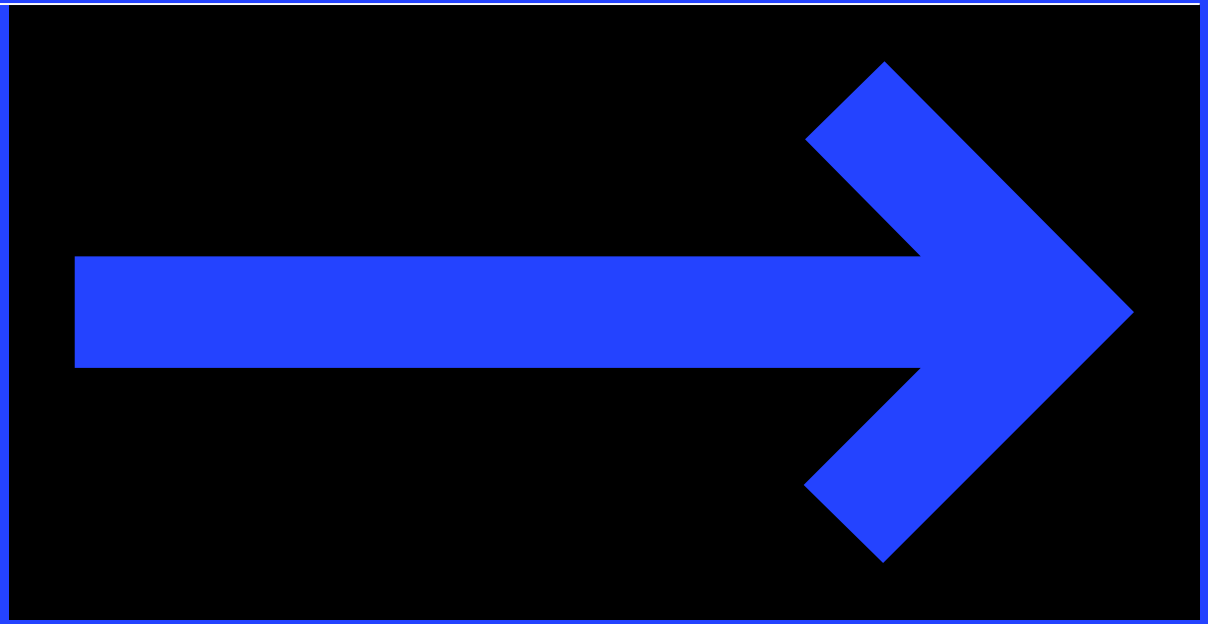
One gateway enforces access and routing policy.

Monitor

Health checks send traffic only to services that are up.

Demo

Any questions?
Ask away!



We will have a company assistant
That talks to many internal AI
agents though the gateway and
see the policies enforced

Thank you!
